

Comparing CoCreate OneSpace Drafting 2007 with Previous Releases

OneSpace Drafting is CoCreate's leading 2D Design and Drafting tool. OneSpace Drafting continues to evolve and be enhanced to best meet the needs of 2D designers around the world. This table highlights some of the primary product enhancements that were delivered in each of the last several versions of OneSpace Drafting.

	ME10 2000+ (R10.5)	ME10 2002 (R11)	Drafting 2004 (R12)	Drafting 2005 (R13)	Drafting 2006 (R14)	Drafting 2007 (R15)
Customization options for Windows user interface	■	■	■	■	■	■
ME symbols included in Drafting	■	■	■	■	■	■
Load multiple drawings		■	■	■	■	■
Freely define line patterns		■	■	■	■	■
Plot multiple drawings		■	■	■	■	■
Load and generate HPGL 1 & 2		■	■	■	■	■
In-place text editing		■	■	■	■	■
Project reference points		■	■	■	■	■
PDF output			■	■	■	■
Print preview			■	■	■	■
Store as XML (SVG format)			■	■	■	■
Translate paperspace format (DXF)			■	■	■	■
Integration of Drawing Manager (add-on module)			■	■	■	■
BOM Editor (add-on module)				■	■	■
Store fonts in MI file				■	■	■
Full staggered dimensioning				■	■	■
Macro debug tools				■	■	■
Save plot configurations automatically				■	■	■
View text before placing dimensions				■	■	■
Advanced in-context modification options available					■	■
Improved Revision checker includes textual reports					■	■
Advanced modification techniques for dimensions, notes and symbols					■	■
Automatic slot center lines					■	■
Create geometry with CoPilot's fly-by highlighting					■	■
Unlimited UNDO and REDO for 2D design and modifications						■
Unlimited UNDO and REDO for 2D dimensions						■
Global language support including mixed language support on drawings, based on Unicode standard						■
